

Meeting Minutes

Purpose: External Group Meeting #1 - Stormwater Design Manual
Date: 30AUG2007
Place: DMD Conference Room 2A-B – 9AM-11AM
Attendees:

MEETING

The meeting began at 9:15 AM.

1. The meeting began with Tim Method, the Environmental and Policy Coordinator for the City of Indianapolis, giving a brief overview of the stormwater design manual for the City of Indianapolis and making introductions of the involved participants. Tim introduced AMEC Earth and Environmental, the City's consultant for management of the City's stormwater National Pollutant Discharge Elimination System (NPDES) Permit and supplemental support tasks for updating the Stormwater Design Manual. The two staff from AMEC in attendance were Doug Noel and Brian Brown.
2. Doug Noel provided a general overview of the process to date with the draft Stormwater Design and Construction Specifications Manual as well as the main issues and changes made. The topics discussed were the following:
 - a. History of the design manual and its chapters
 - b. Overview of the modification process to date
 - c. Overview of the major modifications that needed to be updated
 - i. Downstream Impacts of Developing Properties
 - ii. Redevelopment Standards
 - iii. Maintenance Responsibility
 - iv. Water Quality
 - v. Other modifications:
 1. Administrative "clean up"
 2. Create Green Infrastructure Document and review mechanisms
3. Doug Noel then provided an overview of the process going forward
 - a. Minutes and presentation will be posted on the DPW web-site.
 - b. Meetings agendas and reminders will be emailed out as well as posted on the DPW web-site
 - c. Specific comments and requested changes need to be emailed directly to Brian Brown

The meeting ended at 10:15 AM.
